

# Exhibit **With Us**

## **AgingINnovation 2026 Annual Conference**

**Peak Purpose: Redefining How We Live and Age**

August 10–13 | Denver, Colorado

### *Why Exhibit in 2026?*

A must-attend event, the AgingINnovation 2026 Conference builds on Pioneer Network's legacy of person-directed living and THE GREEN HOUSE® PROJECT's transformation of skilled nursing, while expanding far beyond them. Today, AgingIN supports the full continuum of care: assisted living, memory care, skilled nursing, home- and community-based services, PACE programs, and emerging models focused on humane, dignity-centered living and working. Our growing influence reflects one of the sector's greatest needs: a stronger, more empowered care workforce.

AgingIN's annual conference draws a uniquely diverse and influential audience that includes C-suite leaders, executive directors, administrators, surveyors, ombudsmen, researchers, academics, frontline professionals, and advocates—each committed to advancing dignity, culture transformation, workforce well-being, and human connection in aging services.

Designed for meaningful connection, the conference creates constant points of interaction between attendees and exhibitors. The result is genuine dialogue, hands-on learning, and collaboration that continues long after the event. For exhibitors, this translates to more than booth traffic—it's access to engaged leaders, aligned missions, and relationships that generate long-term impact.

- **Engaged Audience:** Participants come with purpose, motivated by dignity, culture change, and the future of elder care.
- **Curious & Committed:** They want practical insights they can apply immediately.
- **High Interaction:** The experience is intentionally built for continuous attendee-exhibitor engagement.
- **Real Relationships:** Exhibitors gain meaningful conversations that turn into lasting professional connections.
- **Impactful Presence:** Your organization is aligned with a values-driven community, elevating both your visibility and your influence.

# Wellness: The **Smartest Move** You'll Make in 2026.

Join a forward-thinking preconference dedicated to actionable, science-driven practices that fuel healthier environments and more compelling sales narratives.

A full pre-conference day dedicated to wellness, featuring science-backed approaches to lifestyle, brain health, workforce well-being, and operational strategies that communities can immediately apply. It's the most forward-thinking gathering we've ever hosted—an unmatched opportunity for exhibitors to align with innovation, access decision-makers, and demonstrate leadership in the future of aging services.
