June 9
Virtual classroom
Train-the-Trainer

A class for all nurses, focused on supporting their vital role in ensuring clinical excellence in partnership with the Shahbazim/direct care partners.

In this highly interactive and practical course, nurses will be fully equipped to excel in their unique role in Green House and small house homes.

This session has provided me with necessary tools to ensure that elders are the focal point of care.

COURSE CONTENT

- Recognize the unique role and influence of a Green House/small house nurse.
- Learn how to form partnerships with Shahbazim/direct care partners built on trust, respect, shared problem-solving, and reciprocal feedback.
- Evaluate dignity of risk and the nurse's role as advocate for elders.
- Describe and implement a liberalized, elder-directed medication pass.
- Understand the adverse effects of polypharmacy and develop well-being plans for elders who display regular distress.
